CATALYTIC CONVERTER THEFT PROTECTION

Protect the parts that keep you moving.

Catalytic Converter Theft Protection Coverage

A catalytic converter is an essential part of your vehicle that cleans the exhaust emissions using chemical reactions with precious metals. In recent years, catalytic converter thefts are on the rise. A stolen catalytic converter paired with the damage left behind can result in substantial repair expenses.

Having Catalytic Converter Theft Protection can help protect you against an incident of theft, ensuring you're protected from unforeseen expenses.

What's Covered?

If the Theft Deterrent Product fails to protect your catalytic converter from being stolen or your vehicle is deemed a total loss because it was damaged beyond reasonable repair as a direct result of the catalytic converter(s) being stolen, we will reimburse you up to \$1,000 for an automobile deductible expense.

The product being offered is a service contract and is separate and distinct from any product or service warranty, which may be provided by the manufacturer, importer, or seller. Coverage may vary by state and lender. Always review and refer to your agreement for complete coverage details.

How It Works

- 1 Traceable, heat-proof stickers will be applied directly to your vehicle's catalytic converter(s) at a dealership.
- 2 If the stickers are removed, invisible identification numbers will be left behind, easily traceable by law enforcement.
- 3 In the event your vehicle's catalytic converter is stolen, or as a direct result your vehicle is deemed a total loss, you can take advantage of the Catalytic Converter Theft Protection System Limited Warranty benefit.
