Windshield Repair & Replace

WINDSHIELD PROTECTION
YOU CAN COUNT ON.

WHAT IS WINDSHIELD PROTECTION?

Windshield safety is important and allows you to see the road clearly when driving. Our Windshield Protection treatment is applied to your vehicle's front windshield by a trained professional and strengthens the glass to deflect road debris.

FRONT WINDSHIELD PROTECTION

A protective treatment will be professionally applied to the windshield of your vehicle, which will help protect against damage (chip or crack). If damage occurs due to a covered road hazard¹, and/or due to the failure of our treatment, we will repair and retreat, or replace the damaged area(s) of the windshield.

HAIL DAMAGE REIMBURSEMENT

In the event your vehicle's windshield is damaged from hail, you are eligible for reimbursement.

¹ A road hazard is defined as debris on the road's surface such as rocks, trash, nails, glass, steel plates, etc., or road surface conditions such as potholes, sinkholes, cracks etc., that can result in damage to the vehicle.

Coverage varies by state, always review and refer to your agreement for complete coverage details.
