NanoCure® Ceramic Graphene Protection was developed to protect your vehicle from the most common incidents that can permanently damage its appearance and ding its resale value.

Groundbreaking protection that goes beyond the surface.

NanoCure® Ceramic Graphene Protection offers multiple options to ensure you have the coverage you need.

Make the luster last!

Choosing **NanoCure® Ceramic Graphene Protection** is like giving your vehicle's appearance a powerful, transparent coat of armor. Featuring revolutionary nanotechnology with the latest advancements in Ceramic and Graphene, NanoCure® with Nanoxide™ ensures your vehicle's exterior and interior surfaces will stay showroom beautiful for years to come!

ELITE COVERAGE (84 Months) ★★★★

Everything in Comprehensive Coverage, PLUS:

- **Black Trim Molding Protection** defends against fading and discoloration of the black trim molding
- **Headlight Lens Protection** prevents dulling, yellowing and fading of your vehicle's headlight lenses

COMPREHENSIVE COVERAGE (60 Months) ★★★

Everything in Classic Coverage, PLUS:

- **Factory Wheel Protection** prevents staining from excessive brake dust that's not easily removed by a commercial car wash

CLASSIC COVERAGE (36 Months) ★★

Everything in Basic Coverage, PLUS:

- **Interior Protection** shields leather, vinyl, carpet and fabric against spills and stains resulting from food, drink and bodily fluids, as well as sun damage

Ideal for Leases!

BASIC COVERAGE (12 Months) ★

- **Exterior Paint Protection** protects and enhances the factory paint, including matte finish

Includes Exclusionary Coverage for any damage not specifically excluded in the warranty.

Why choose Ceramic Graphene Protection?

- Enhances the original paint, including matte finish
- Guards against contaminants that can damage the paint
- Forms a harder surface for better scratch resistance

What does Ceramic Graphene Protection guard against?

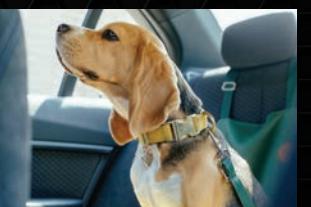

- Sun-induced fading
- Loss of gloss or oxidation
- Hard water spotting
- Tree sap
- Insects ... and more

Protection Inside and Out

NanoCure® with Nanoxide™ protectants give a vehicle's interior carpet, fabric, leather and vinyl surfaces a rugged defense against incidents and everyday mishaps that can permanently damage the appearance, including:

- Food and beverage spills
- Pet stains
- Bodily fluids
- Damaging UV rays ... and more

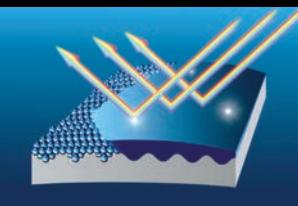

NanoCure® with Nanoxide™ provides the ultimate protective barrier.

NanoCure® protectants that feature **Nanoxide™** an advanced formulation that gives your vehicle's exterior and interior surfaces a hazard- and stain-resistant barrier.

Nanotechnology is the “science of small” – it uses microscopic particles to fill uneven areas, forming a molecular bond with vehicle surfaces. (One nanometer is one billionth of a meter.)

The Science of Ceramic Graphene

NanoCure® Ceramic Graphene offers an elevated level of protection thanks to its lightweight, flexible and ultra-strong characteristics. Graphene is 200 times stronger than steel and harder than a diamond, making vehicle surfaces impervious to environmental hazards and adverse weather conditions. Graphene is also self-healing, meaning that minor damage to the surface will disappear over time as the graphene atoms flow back together to repair the area.
