The BatteryShield Limited Warranty safeguards you from unforeseen expenses associated with a battery replacement.

If the battery cannot be recharged and has reached the end of its lifespan, we will reimburse the cost of a covered replacement battery every 12 months. Proper maintenance and preventative care for your vehicle can help extend its life but could get costly. BatteryShield can limit the amount you spend on repairs.

COVERAGE DETAILS

We agree to pay, or in our sole discretion, reimburse you the cost to replace a covered battery when a breakdown occurs. "Breakdown" means the failure of any covered battery to perform its intended function in normal use. Covered batteries include those that experience a failure of operating performance beyond a reduction in function due to normal wear and tear.
